PES8M
#04308
3" - 8" nom. capacity
(75 mm - 200 mm actual)

PES6M
#04313
3" - 6" nom. capacity
(75 mm - 160 mm actual)

Strong,
Nylon Strap
for Lifting

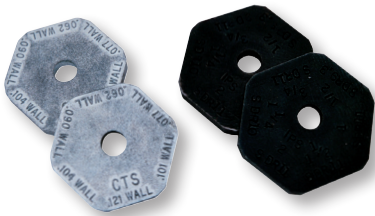

Choose the stops
needed for the job to give
the tool maximum purpose.
Metric pipe stops
available, too!

- Reduce man hours spent looking for buried shut-off valves.
- Reduce waste of water or gas by enabling crews to get service restored quicker.
- PES6 and PES8 PE Squeeze-Off Tools compress polyethylene (PE) plastic tube/pipe to stop the flow of water or gas. When used properly, the pipe will return to its original shape and normal flow rates.
- Both hydraulic "H" and manual "M" tools available.
- PE Squeeze-Off Tools for 1/2" - 4" pipe also available.

PES8H
#04309
3" - 8" nom. capacity
(75 mm - 200 mm actual)

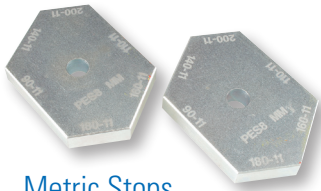

Shown with optional
flow control valve #94317

CTS and IPS Stops

PE Squeeze-Off Tool Stops

- *Squeeze-Off Tools use positive stops to prevent damage to the tube from over clamping.*
- *REED stops are sold in pairs and offer multiple stops per set.*
- *Visit www.reedmfco.com/en/cts-ips-stops for complete details.*

Metric Stops

- *Metric stops are available. Check www.reedmfco.com/en/metric-stops for the full list.*

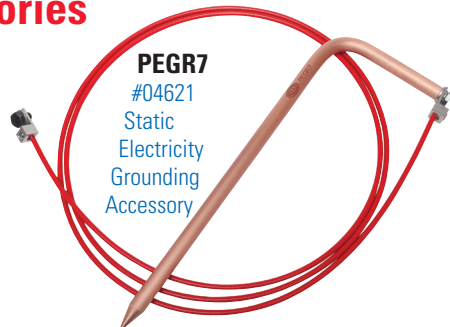

Field Safety Accessories

*Always be aware
of the possibility
of static electricity.*

For the PES8H, an optional **Flow Control Valve** (#94317) is available to control release of the upper jaw to reduce risk of static build-up.

FCVPES8H
#94317
Flow Control Valve
for PES8H

PEGR7
#04621
Static
Electricity
Grounding
Accessory

PEGR7 #04621

- Heavy-duty design holds up to field use demands.
- Ground the work area to increase operator safety.
- Heavy-duty cable with 7 foot working distance.
- Set screw lugs enable cable repair by operator.

PEGRM
#04622
Static Electricity
Grounding Accessory

PEGRM #04622

- Quick connect magnet attachment for hassle-free grounding.
- Compatible with many tools for polyethylene (PE) including ratchet shears.
- Ground the work area to increase operator safety.
- Heavy-duty cable with 7 foot working distance.
- Compatible with Reed's STDA1 Static Discharge Alarm.
